

Say hello to Ducab.

We are global leaders in the development, manufacture, and distribution of world-class solutions to the energy sector.

With an increasing focus on renewables, Ducab produces advanced copper and aluminium wire and cable products, and overhead conductors, as part of its end-to-end energy solutions. From our home base in The Emirates, we work with customers across 45 countries in the Middle East, Africa, Asia, Australasia, Europe, and the Americas. Founded in 1979, today the company is jointly owned by Investment Corporation of Dubai and Abu Dhabi's ADQ.

Ducab operates six high-tech manufacturing facilities and manages its own research and development, and specialised testing laboratories. We employ more than 1,400 people and contribute annual revenues of over US\$1.4 billion to the UAE economy. Our sister company Ducab HV provides power transmission solutions, while our metals business DMB provides high-quality aluminium and copper industrial products to customers around the world.
